

Prostock - Modular industrial structures

Prostock, the long term investment

Prostock is the ideal product for the industrial field. The range offers an unbeatable storage / warehouse solution, fully equipped with a wide choice of ancillary items such as: pedestrian doors, roller shutter doors, loading bays, gutters and down pipes, insulated or non-insulated cladding, double inside roof covers...

Totally flexible, Prostock offers you security and durability.

A modular and adaptable structure

Prostock is adaptable to your needs; increasing and decreasing

the size is possible within a short space of time and without massive construction costs. It can be fully relocated. Prostock can be used as an extension to an existing building, guttered to another Prostock or left to stand alone.

The translucent membrane roof offers 100% natural lighting, which helps to reduce running costs as well as to create a more comfortable working environment.

Quick erection time

25 m x 45 m can be erected within 10 days.

Range

Height: 5 and 6 m

Span: 10*, 15, 20, 25 and 30 m

Bay: 5 m

Cladded steel walls and gables with PVC coated roofs

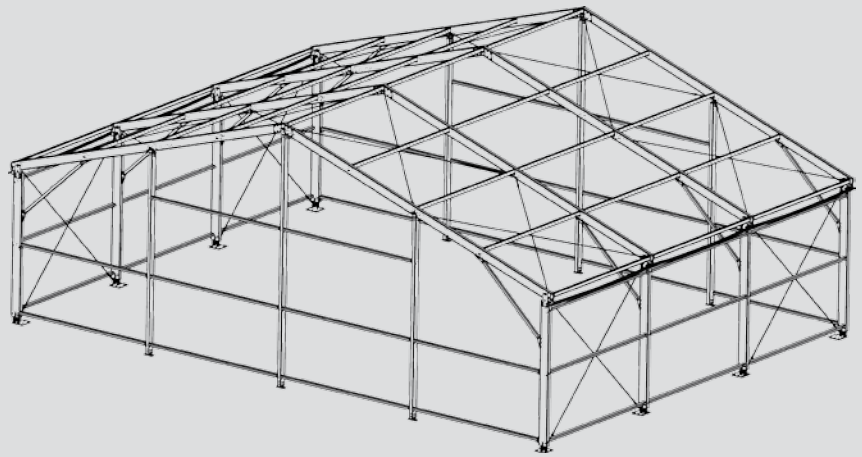

*Height 4 and 5 m

Walter SAS
and the
respect for the
environment

Because today the respect for the environment concerns all of us, Walter SAS is involved in a sustainable development. So, when the use of the structure is over, the dismantled structure can either be reused, or completely recycled («Texyloop» for the fabric).
